# THE JOURNAL OF LOGIC AND ALGEBRAIC PROGRAMMING

Volume 72, issue 2, July/August 2007

---

## CONTENTS

### Special issue

Special issue on Programming Language Interference and Dependence D. Clark, S. Danicic and R. Giacobazzi	123
Typing noninterference for reactive programs A. Almeida Matos, G. Boudol and I. Castellani	124
Characterizing minimal semantics-preserving slices of function-linear, free, liberal program schemas M.R. Laurence	157
Tempus fugit: How to plug it A. Di Pierro, C. Hankin, I. Siveroni and H. Wiklicky	173
A non-standard semantics for program slicing and dependence analysis S. Danicic, M. Harman, J. Howroyd and L. Ouarbya	191
Linearity and bisimulation N. Yoshida, K. Honda and M. Berger	207
Author Index – Volume 72 (2007)	239
Keyword Index – Volume 72 (2007)	240
